FREE PREVIEW AVAILABLE >

See inside for details

FACCTs offers a broad range of reports plus vendor directories and a comprehensive glossary of IT and related terms.

- ▶ **Technology Tutorial** reports provide intelligence about emerging and mature technologies.
- ▶ **Marketplace** reports offer an excellent way to stay current on all the latest trends and advances in the IT and communications market segments you care about.
- ▶ **Implementation Guide** reports provide users with the know-how to keep a project running and on budget.
- ▶ **Face-Off** reports help users understand how key technologies and products measure up one-on-one.
- ▶ **Standards** reports examine the major IT and communications standards and protocols currently in place.
- ▶ **Product Profile** reports provide a concise summary of the leading products and suppliers, examine product strengths and limitations, and analyze current pricing strategies.
- ▶ **Company Profile** reports review business goals, sales and marketing strategies, and financial stability of the leading vendors.
- ▶ **Timeline** reports drill down to track leading vendors' alliances and joint ventures, personnel and organizational changes, and financial performance.
- ▶ **Comparison and Selection Guide** reports offer the intelligence users need to make the BEST product and service selections.

● Everything you need to know— IN ONE PLACE

A COMPREHENSIVE, DYNAMICALLY UPDATED, AND FULLY SEARCHABLE WEB-BASED LIBRARY containing more than 1,200 reports researched, developed, and written by an expert team of IT and communications professionals

FACCTS reports are organized by subject area. Subscribers can click on any one of our comprehensive information modules, conduct a “free search” by keyword, or search by type of report. Users gain immediate access to a vast library of topical reports. Reports that can help them orchestrate realistic technology strategies for their organization, track critical technology advancements, monitor emerging trends, leverage technologies for competitive advantage,

assess vendor business practices, validate product claims, manage IT costs, understand critical issues in healthcare and government IT, and much more.

Primary users include IT decision makers, vendor company executives, government IT administrators, IT project leaders, business managers, corporate librarians, instructors, and students.

★
*The BEST
knowledge
resource on the
Web for IT and
communications
professionals*

Authoritative. Focused. Practical.

FACCTs reports are designed for organizations like yours—organizations in need of quick, timely, and affordable access to reliable technology information and intelligence. No matter what your budget or preferred level of access—single user, multiuser, or enterprisewide user—we have a solution that's right for your organization. Our goal is to manage and deliver useful, current, and cost-efficient information that will serve the needs and requirements of your organization for years to come.

Browse the **FACCTs** database by subject area, report type, or quickly search the entire library by keyword. The database search engine is fast and highly responsive. Reports are listed by relevancy to the search and contain capsule summaries to help you determine their mission-specific usefulness. The engine also makes finding related reports quick and easy. **FACCTs** delivers a continuous stream of new and updated reports to keep you apprised of all the latest news, products, and advances sweeping the IT and communications industries.

Here's what you get with your **FACCTs** subscription:

- **More than 1,200 new and dynamically updated reports**
- **Cyberscape Digest**—A weekly compilation of the top internet-related stories
- **Telecom Weekly**—News and events sweeping the telecom marketplace
- **Faulkner Flash**—Weekly alert service bringing you all of the hot IT and communications news in convenient summary style
- **The Guide to Internet Research**—Newsletter that provides in-depth analysis of web-based research resources, hot trends, and Web 2.0 technology
- **The Information Advisor**—Newsletter offering analysis, advice, and strategy for the business and information professional
- **Monthly electronic alert** linking you to all new and updated reports
