Also inside ...

Faulkner **Security Management Practices**
A library of insightful, real-world reports for meeting
today's complex security and business continuity
challenges. **FREE**, no-obligation preview available.

Everything you need to know IN ONE PLACE

- ▶ **FACCTs** is organized by technology subject area, but subscribers can also do a free search by entering any query or search by report type.
- ▶ **FACCTs** reports cover critical and emerging issues such as cloud computing, emerging communications technologies, web-based office applications, and agile development technologies.
- ▶ Other key areas of coverage include IT asset management, wireless and broadband communications, IT security, healthcare, streaming technologies, website management, and more.
- ▶ **FACCTs** reports were designed for organizations that require quick, timely, and affordable access to sound and reliable technology information and intelligence.
- ▶ No matter how large or small your budget or preferred level of access — single user, multiuser, or enterprisewide user — we are confident that we can deliver a continuous flow of useful, current, and cost-efficient information that will meet and hopefully exceed your every expectation.
- ▶ **Technology Tutorial** reports provide concise information and details about mature and emerging technologies.
- ▶ **Marketplace** reports offer an excellent way to stay current on all the latest trends and advances in the IT and communications market segments you care about.
- ▶ **Implementation Guide** reports provide professionals with the know-how to keep a project running smoothly and on budget.
- ▶ **Product Profile** reports provide a compact summary of the leading products and suppliers, examine product strengths and limitations, and analyze current pricing strategies.
- ▶ **Company Profile** reports review business goals, sales and marketing strategies, and financial footing of the leading vendors.

SMP offers insightful, real-world reports for meeting today's complex security and business continuity challenges. Monthly reports discuss and dissect the critical issues and topics that matter most ...
